

District Scale Project Package on the Carlin Trend

Investment Highlights

STRATEGIC POSITION ON THE CARLIN TREND

- District hosts Newmont's Rain and Emigrant Mines and Gold Standard's new Pinion and Dark Star discoveries at the Railroad-Pinion district.
- South Carlin Projects (135 km²) includes: Pony Creek, Dixie Flats and North Star; Immediately SE and NE of Gold Standard Ventures.

DEFINED MINERALIZATION AND TARGETS

- South Carlin Project hosts historical gold resource estimates, and extensive exploration databases.
- Large oxide gold corridors identified at Bowl and North Zones.
- New discovery at West Zone over 2.3km long in 2018.
- 10,000 metres of drilling completed in 2018.
- Anticipated mineral resource estimate on Pony Creek: H1-2019.

PORTFOLIO OF OPPORTUNITIES

- Portfolio of 11 projects 212 km² with historical resources⁽¹⁾, mineralized drill intercepts and/or gold showings on major gold trends.

Leadership & Shareholders

HIGHLY EXPERIENCED TEAM

Contact Gold's team is led by geologists, mining executives, finance and investment banking professionals with significant experience from Discovery to Mine Building.

DIRECTORS

JOHN DORWARD – CHAIRMAN
GEORGE SALAMIS – DIRECTOR
MARK WELLINGS – DIRECTOR
CHARLIE DAVIES – DIRECTOR
RIYAZ LALANI – DIRECTOR

MANAGEMENT

MATTHEW LENNOX-KING – DIRECTOR, PRESIDENT & CEO
JOHN WENGER – CFO & VP STRATEGY
VANCE SPALDING – VP EXPLORATION
ANDREW FARNCOMB – DIRECTOR AND SENIOR VP

STRATEGIC SHAREHOLDERS

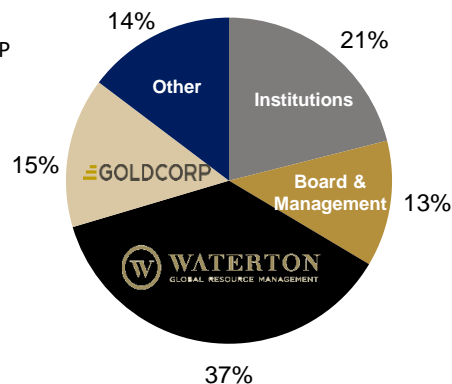

Mix of institutional investors, leading gold companies, and substantial Board ownership.

Key Financial Statistics

As of DECEMBER 6, 2018

Contact Gold is well capitalized with a strong treasury to fund its exploration programs. Its shareholders include Waterton Global Resource Management, Goldcorp and several leading mining focused institutional investors.

- Share Price: \$0.35
- Shares outstanding: 50.6 M
- Preferred Shares: 11.1 M⁽²⁾
- Options/Restricted Shares: 8.2 M
- Market Capitalization: \$17.7 M

Board and Waterton locked-up until June 2019

1) Pony Creek Technical Report dated October 22, 2018 (refer to Disclaimer – Information Regarding Historic Resources). 2) Preferred Shares terms are as follows: early redemption provisions at Contact Gold's option, US\$11.1 million face value, 5-year term, cumulative cash dividend at a fixed rate per annum equal to 7.5% payable on the maturity date, convertible into common shares at US\$ equivalent of \$1.35 per share subject to the exchange rate at the time of conversion. Based on CAD/USD FX rate of \$0.7810 on November 2, 2017, Waterton's fully diluted interest is 45.46%. Note: This summary is qualified in its entirety by reference to the terms of the preferred shares of the company set out in the articles of incorporation, the investor rights agreement and the securities exchange agreement (including the form of governance and investor rights agreement), which has been filed on SEDAR under the issuer profile of Contact Gold Corp. Company financials can also be found on SEDAR.

Strategic Land Position – 135 km² on the Carlin Trend

Including	111	117	6	10.53
PC17-007	44	123	79	0.78

Project Highlights

STRATEGIC LAND POSITION

- 135 km² located immediately to the south of Gold Standard Ventures' Railroad-Pinion Project
- Properties in prospective districts unlocked, and unexplored over the past 10 years

ESTABLISHED MINERALIZATION

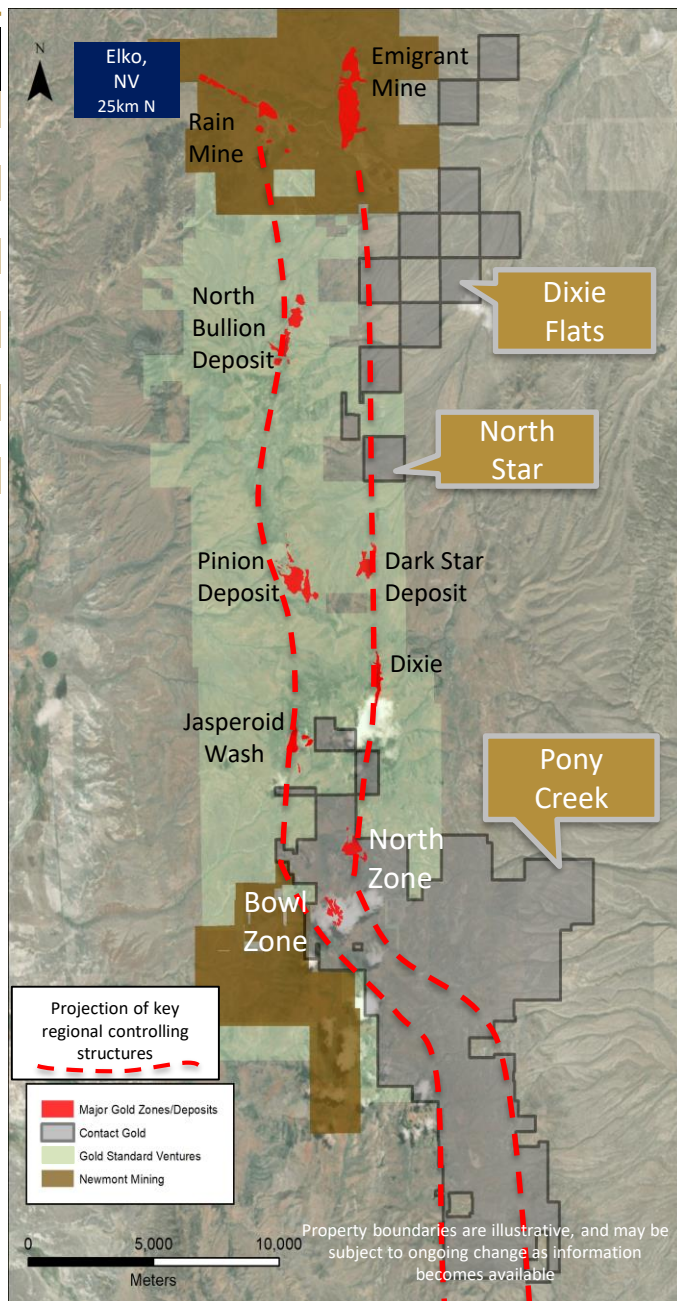

- Underlain by Carlin-type gold system with historic gold resources⁽¹⁾
- **29.4 M tonnes @ 1.5 g/t Au (1,426,000 ounces contained)**
- Significant gold intercepts:
- **2.88 g/t Au over 99 m, including 15.99 g/t Au over 6m**

TARGET RICH ENVIRONMENT – Near surface oxide and deeper high grade targets supported by extensive exploration databases

PROSPECTIVE HOST ROCKS – Key regional gold host units present including the Devonian Webb / Devil's Gate and the Dark Star Pennsylvania-Permian clastic carbonate units

UNTESTED OPPORTUNITIES – Large areas of prospective rocks have never been explored, particularly where the newly-recognized host horizons at the Railroad-Pinion Project to the north are exposed at Pony Creek

POSITIONED FOR MAJOR DISCOVERIES – 2019 program expanding West and Bowl Zones & to test new targets

Note: Property boundary and deposit locations are approximations

Catalysts

1. ONGOING DRILL RESULTS FROM BOWL ZONE AND NEW TARGETS

- 10,000 metres of RC drilling completed in 2018 with results still being received

2. MULTIPLE NEW TARGETS READY TO DRILL IN 2019 DRILLING PROGRAM

- Result of comprehensive soil sampling, geophysical surveys and structural mapping through 2017/18

3. MINERAL RESOURCE ESTIMATE, PONY CREEK

- Expected H1-2019

4. FURTHER CONSOLIDATION OF SOUTH CARLIN DISTRICT

5. VALUE CREATING TRANSACTIONS AND EXPLORATION ON OTHER 10 PROJECTS IN PORTFOLIO

Disclaimer – Information Regarding Historic Resources: A qualified person has not done sufficient work to classify the historical estimate as current mineral resources or mineral reserves and the Company is not treating the historical estimate as current mineral resources. The scientific and technical information contained in this presentation has been reviewed and approved by Vance Spalding, CPG, VP Exploration, Contact Gold, who is a "qualified person" within the meaning of NI 43-101. The technical information included in this document in reference to Pony Creek is from the report titled "Technical Report on the Pony Creek Gold Project, Elko County, Nevada, USA", dated October 22, 2018. The Pony Creek Technical Report should be referred to for details regarding the data verification undertaken with respect to the scientific and technical information included in this document, for additional details regarding the related exploration information, including interpretations, the QA/QC employed, sample, analytical and testing results and for additional details regarding the mineral resource and mineral reserve estimates disclosed herein.
